Meet patient **Alexander**

Before his brain cancer diagnosis in November 2017, Alexander won his classroom's Integrity and Friendship award. Kindhearted and energetic, Alexander is a born leader – and he loves LEGOs. After surgery to remove his brain tumor, Alexander underwent proton radiation therapy and chemotherapy at St. Jude Children's Research Hospital®. "We feel safe here," says his mom. "Our hearts are at peace here." **St. Jude won't stop until no child dies from cancer.**

September is *Childhood Cancer Awareness Month*. This year, do something good for yourself and the kids of St. Jude Children's Research Hospital® – register for the St. Jude Walk/Run. This family-friendly event is where you can join together with supporters across the country to support the lifesaving mission of St. Jude: Finding cures. Saving children.® Your fundraising efforts ensure that **families never receive a bill for treatment, travel, housing or food—because all a family should have to worry about is helping their child live.**

And while St. Jude may not be located in your community, our research and discoveries are. St. Jude freely shares the discoveries it makes, so every child saved at St. Jude means doctors and scientists in your community and worldwide can use that knowledge to save thousands more children.

Here's how your fundraising efforts touch the lives of St. Jude patients.

\$57

Helps provide necessities for parents who may have hurriedly left home after their child's diagnosis.

\$100

Helps provide platelet count test for two patients

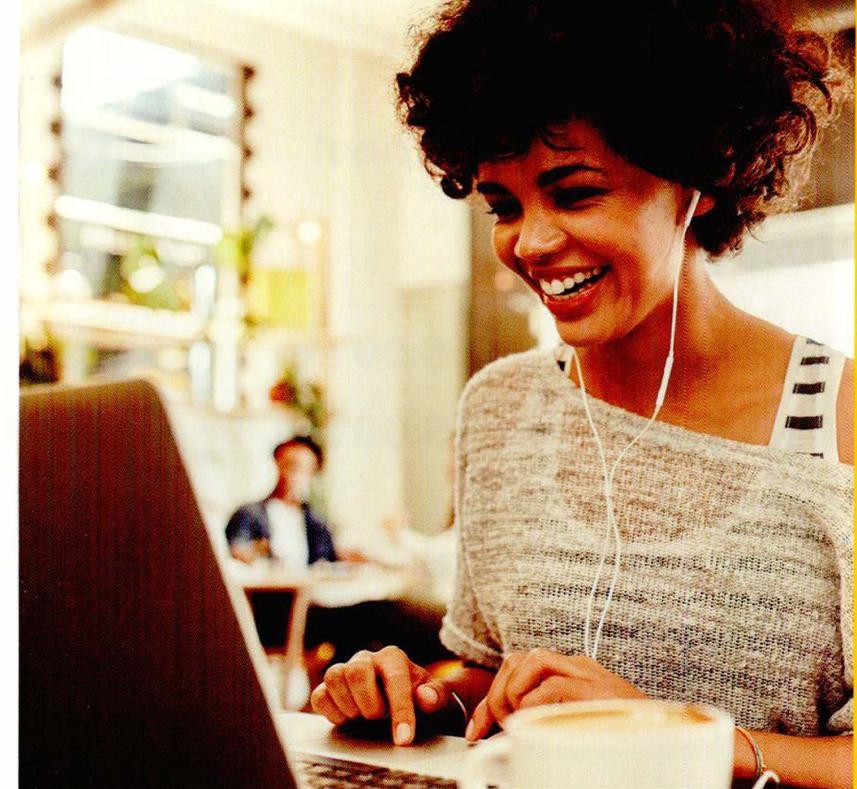

\$250

Helps provide a meal card for a St. Jude family for one week.

\$500

Helps provide one platelet transfusion.

We won't stop until no child dies from cancer.
